

TWO SLIGHTLY NIGHTS SOME

THEATRE THAT MATTERS

"The show is centred on the corrosive impact of pornography on young lives, is staged superbly in order to cover tricky material using techniques that avoid the explicit while covering a topic that is very much in our community but relatively seldom spoken of."

ROSS SINCLAIR, PRINCIPAL,
HUTT VALLEY HIGH SCHOOL

"We were all hugely impressed. I'm not quite sure what I was expecting, but I certainly wasn't ready for such a coherent, powerfully performed piece."

DAVID SHANKS,
CHIEF CENSOR

Over the last year we have been working on a piece of social activist theatre, 'Two Nights.' It is a response to the largely undiscussed role that pornography is playing in redefining both the idea and practice of intimacy amongst young people.

Our ultimate goal is to give young people an opportunity to start talking about the sexual landscape they have inherited from us.

The hope is that through this public discussion they can begin to take ownership of their own values and aspirations, and so better flourish.
